

## **What happens in the event of an emergency in the exam room**

If there is an emergency such as fire, which necessitates evacuating the exam room, invigilation staff follow this guidance.

The invigilator **must** take the following action in an emergency such as a fire alarm or a bomb alert.

- a. Stop the Students from writing.
- b. Advise Students to leave all question papers and scripts in the examination room. **Students must close their answer booklet**
- c) Collect the attendance register (**in order to ensure all Students are present**) and evacuate the examination room in line with the instructions given by the appropriate authority.
- d) Students should leave the room in silence.
- e) Make sure that the Students are supervised as closely as possible while they are out of the examination room to make sure there is no discussion about the examination.
- f) Make a note of the time of the interruption and how long it lasted.
- g) Allow the Students the full working time set for the examination.
- h) If there are only a few Students, consider the possibility of taking the Students (with question papers and scripts) to another place to finish the examination. Students **must** be given the opportunity to sit the examination for its published duration.
- i) Make a full report of the incident and of the action taken, and send to the relevant awarding body

**Students must not talk or communicate with each other or any other person/teacher/staff (except exams office staff and the invigilation team). It may be considered malpractice if students do not follow this guidance.**
